c. Spouses To Teachers Program: The DoD tasked DANTES to offer a new pilot program for spouses. The program was launched 1 Sep 04 to help spouses begin careers as teachers. It is currently limited to six states with a large military population and a need for public school teachers. They are California, Colorado, Florida, Georgia, Texas and Virginia. The primary focus of Spouses to Teachers is an information and counseling resource to help interested spouses understand: requirements for state teacher certification, routes to certification, most critical teacher needs in the state, financial assistance for degree completion and certification programs, state specific programs leading to certification, transfer of certification from state to state and assistance with locating employment opportunities. Financial assistance will also be available in the form of a reimbursable stipend to help pay for tests required as part of the certification process, such as the PRAXIS or state specific examinations. An eligible spouse may receive reimbursement up to \$250.00. Eligible spouses include spouses of active duty personnel, spouses of members of the selected reserve and National Guard, and spouses of members of the individual ready reserve (IRR) recalled to active duty. A website is available www.spousestoteachers.com providing information to help interested spouses answer many questions regarding a career in public education. Information links will take spouses to sites such as programs leading to teacher certification, tips on locating teaching positions, and interview and resume tips among other useful topics. A DANTES Spouses to Teachers program administrator/counselor will be available to provide general information at 1-800-452-6619 or e-mail STT@voled.doded.mil. Interested spouses may contact the respective pilot state office for California Mr. Michael Carlson, 1337 Howe Avenue, Suite 210, Sacramento, CA 95825-3361, phone: (916) 924-3607 or 1-800-966-2860 (voice mail only), FAX: (916) 924-3609, e-mail: rnathanson@projectpipeline.org. b. First Tip: A Quick Date - When you make an entry that resembles a date, Excel automatically assumes the entry is a date and formats the entry accordingly. The only thing that would make date entry easier is if Excel read your mind and entered the date for you. Well, it almost does, at least it seems that way when you want to enter the current date. Instead of entering the actual date, next time you need to enter the current date, press CTRL + ; (semi-colon) and Excel will conveniently enter the current date for you. **Second Tip: Adding Lines Between Word Columns** - Laying out a document like a newsletter in columns is an easy way

to give it a more professional look. To bump the "snaziness" factor up another notch, try inserting lines between your columns. Click inside one of the columns and select 'Columns' on the Format menu. Check the 'Line Between' box, click **OK**, and Word automatically places vertical lines between your columns.
